

An open frame rack without sides or doors. It is typically used for applications where the rack does not need to control airflow or provide physical security. Open frame racks are well-suited for network cable cabinets and distribution frame applications that involve high-density cable installations, as they offer convenient access and ample open space for cable management.

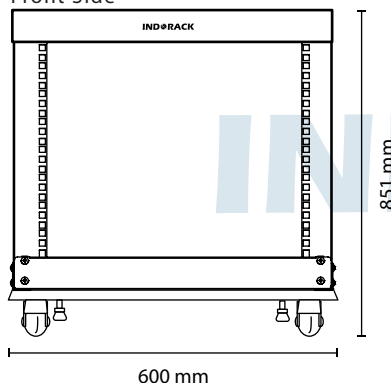

### Product Description

Product Type	20U Open Frame 19"
Product ID	OF20
Size	20U
Weight	± 27.34 kg
Dimension (DxWxH)	(664-1120) x 600 x 1072 mm
Complete Set with	<ul style="list-style-type: none"> <li>• 1 unit horizontal PDU 6 outlet with switch</li> <li>• 30set Cagenut &amp; Screw</li> </ul>

The Depth size can be adjusted according to needs, for the OF20 Depth ranging from 666 mm to 1120 mm, with a height of 20U. It also features bottom wheels for easy mobility.
