

The wallmount frame swing is a durable and space-saving solution for mounting equipment that follows the 19-inch international standard. Built with a welded structure for enhanced strength and stability, the frame supports a static loading capacity of 60 kg, making it suitable for a wide range of networking and IT applications.

It also features Open Access with a 180° swing door, equipped with a simple lock for security and convenience. The mounting rails support both square and tapped holes, providing flexibility for various equipment configurations.

Product Description

Product Type	Wallmount Frame
Product ID	WFD4515
Size	15U
Weight	± 13,6 kg
Dimension (DxWxH)	450 x 550 x 780 mm
Complete Set with	• 1 Unit PDU 6 Germany outlet with switch • 4 pcs Dynabolt • 20 set Cagenuts & Screws
